

What's at Stake for You in Election 2024?

PROJECT 2025:

The Republican blueprint for turning America into a Christian Nationalist country run by an Authoritarian.

The Heritage Foundation (THF) has developed a blueprint to consolidate power in the presidency. It intends to potentially overturn our democracy if Donald Trump is re-elected or if a Christian Nationalist gains power. THF refers to this plan as Project 2025, labeling it a “playbook for the first 180 days of the next Administration.”

Kevin Roberts, the head of THF, recently stated, “Project 2025 will not be stopped.” A few days later, he remarked, “We are in the process of the second American Revolution, which will remain bloodless if the left allows it to be.”

Some key objectives of Project 2025:

- **Grant the president unchecked power** by restricting Congressional oversight and placing the Department of Justice and FBI under direct presidential control.
- **Implement a national abortion ban** by declaring abortion to be murder, establishing fetal personhood, and terminating access to medications and contraception.
- **“Protect” Social Security and Medicare by reducing benefits**, raising the eligibility age, and shifting coverage from Medicare to private medical insurers.
- **Reduce veterans’ benefits** by restricting eligibility, coverage, and duration and transitioning medical care away from the VA to private insurers and providers.
