

Trump's Project 2025 is getting the exposure it deserves — *finally*. There are plenty of other organizations that can speak to other goals in Project 2025. What we can tell you about is how Project 2025 would fundamentally alter the United States Military and bend it to Trump's will.

Right now, the Military is loyal to the Constitution. The President is the Commander in Chief, but ultimately it is the duty of every member of the Armed Forces to stand against unconstitutional orders. Not under Trump, though.

Trump will use Project 2025 to fire senior officers, generals, and admirals who are loyal to the Constitution and rule of law. He'll avoid replacing those flag officers, reducing their numbers until only the most loyal remain. He'll purge anyone insufficiently loyal from the ranks. He'll dismantle diversity programs.

And then, when the opposition is gone, he will staff up and promote individuals who are only loyal to Trump. Project 2025 circumvents the courts and Congress to get all of this done, so there's nothing in his way if he wins this election.

Think about what that might look like. Think back to when he wanted to shoot protesters, and the Chairman of the Joint Chiefs and his own Secretary of Defense told him "no." Think back to that presidential immunity decision from the Supreme Court — ordering Seal Team Six to assassinate political rivals.

And think about what he's said in his own words: That he wants to purge the "vermin" from the government. That he wants to prosecute his political

opponents. That he wants televised military tribunals for folks like Liz Cheney and others. That he wants peaceful protesters put down by the National Guard.

It's un-American. It's unconstitutional. But with the Supreme Court in his pocket, none of that will matter if he takes back the White House.

We cannot underestimate the threat that Trump poses, and we will not roll over and let fascism sweep the nation. He must be defeated. VoteVets spent millions of dollars beating Trump in 2020, and we've spent millions more since then, defeating MAGA candidates from coast to coast. This year, we will pull out all the stops. There's no other choice.

No one hits as hard as we do, but we can't execute our strategy without your support. The truth is that donations have been down this month. If we don't turn that around, we're in trouble.

So, we're asking you:
